DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 – 5 and 10 - 11, drawn to a vinylidene fluoride resin monofilament and a fishing line comprising the monofilament.

Group II, claims 6 - 9, drawn to a process for producing a vinylidene fluoride resin monofilament.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I has the special technical feature of a vinylidene fluoride resin monofilament having a knot strength of at least 600 MPa and a twist index of at least 0.90 while Group II has the special technical feature of producing a vinylidene fluoride resin monofilament which is stretched in a high temperature oil bath. Groups I and II do not share the same special technical feature and, as a result, unity of invention is not present.

3. Due to the complexity of this restriction, a telephone call was made not made request an oral election to the above restriction requirement.

Art Unit: 1794

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
